

Please note that your decision on LPFM may have a critical impact on our ability to receive the translator broadcast programs from K-LOVE.

This national program serves our local community through programs, news, and music. It would lower our quality of life to be unable to listen to their programs as a family - one of the few family centric programs on the air. The loss would be very disappointing to all, including our High Schooler, Junior High Schooler, and Elementary aged daughter. The K-LOVE program brings the community together and our request is that it continue to be allowed to do so.
